

What our clients are saying:

"Just a note to thank you for your ongoing help as we deal with my sister's dementia and care in a nursing home. The best thing you did for us was to aid us in getting an exact diagnosis of her condition. It was not an easy process, but you calmly directed every step and then found a facility which was a very good fit for her. Your continued support and helpful ideas have made a difficult journey so much easier. Thank you so much."

Judy Hartman

"I cannot thank you enough for pulling out all the stops today and making such significant progress. We are heartened and relieved to know there are such impressive places out there for our mother's care. You are quite a force!"

The Novaks

"We learned so much from you during our time together and we realize we have a lot more to learn. You made my mother feel comfortable and she feels she is on her way to making thoughtful decisions." *George Jeffries*

“I wanted to thank you for the help you gave me in getting Sol ready to come home. I was so stressed for so long it was a relief to have assistance to get the house ready and have great contacts and your support.”

Betty

“I just want to tell you I'm very grateful for all your caring help and savvy wisdom - you really have improved my mother's life significantly. You're a role model.”

Larry

Having your advocacy and guidance has completely transformed a very difficult time in all of our lives - Mom's most of all, and we are so grateful, We cannot adequately thank you for all that you have done and continue to do to improve mom's life and our lives. We didn't know that this could even be possible once Mom was diagnosed with dementia.
